부천대학교
BUCHEON UNIVERSITY

Global Language Center of Bucheon University provides high-quality Korean Language Program and diverse cultural activities.

Bucheon University Korean Language Program is designed to improve international students' comprehensive conversation skills in Korean and understand the Korean culture and society. Until 2020, 400+ global students coming from 20+ different countries have joined Bucheon Korean Regular Program.

At Bucheon University Global Language Center, language learning is conducted through a variety of interactive sessions, class activities and cultural experiences. The training helps students get admitted to Korean universities or engage in work related to Korea.

부천대학교
BUCHEON UNIVERSITY

wcoding is the Leading Global Coding Bootcamp in Seoul, Korea.

Established in 2017, wcoding is the first global coding bootcamp in Seoul, Korea taught in English. So far, we have graduated more than 300 students that are actively working in various fields in IT around the world.

We understand that changing one's career is a challenging mission in life without the access to solid systematic learning, proper career guidance, and a network in the job market.
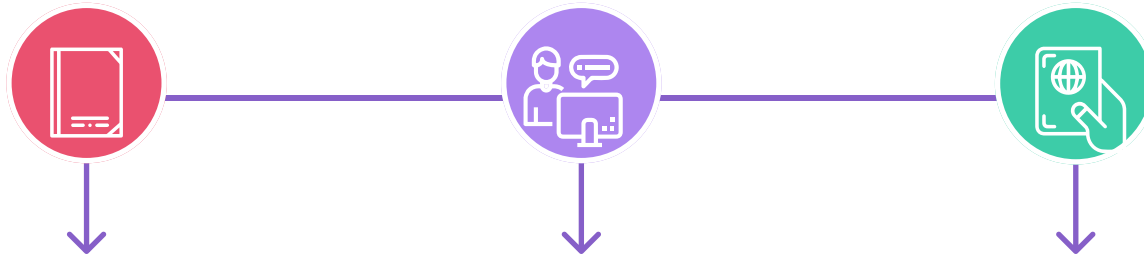

wcoding's mission is to turn anyone with determination into confident developers or entrepreneurs in 16 (full-time) ~ 30 (part-time) weeks. We provide programming education, full-scale project training, career consultation, and startup incubation for international talent in Korea.
